

Thank you for buying Art Gallery Vol.11!

Art Gallery Vol.11 is a high-quality asset pack designed to help you create modern, stylized, and production-ready art gallery environments. Perfect for **virtual reality projects**, **architectural visualization**, **video games**, and **interactive experiences**.

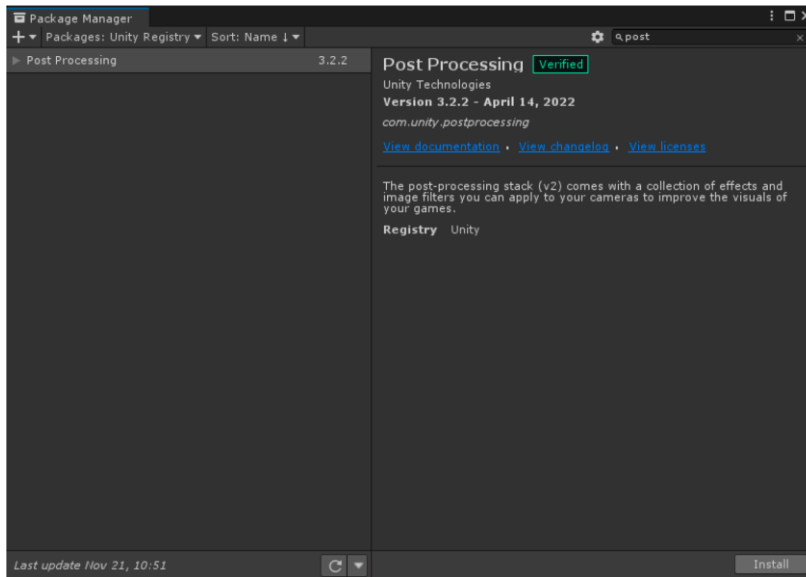

Key Features:

- **Optimized 3D models:** Includes art frames, ceiling spotlights, modular walls, ceilings, and carefully crafted decorative elements.
- **Fully modular design:** Build unique gallery spaces with perfectly fitting components, allowing full customization.
- **Realistic PBR textures:** High-quality materials compatible with **Built-in**, **URP**, and **HDRP**, for seamless integration into any render pipeline.
- **Contemporary aesthetic:** Inspired by minimalist galleries and modern museum environments with a clean, elegant atmosphere.
- **Performance-friendly:** Optimized for VR, PC, and mobile platforms, ensuring smooth performance even on low-end devices.
- **Demo scene included:** A ready-to-use gallery showcasing the potential of the pack, serving as a great starting point for your own projects.

Built-in render pipeline:

To begin, we need to install the post-processing package. Let's click on Window > Package Manager. The Package Manager window will pop up.
